$3,588,000 SURPLUS

Statement of Government Receipts and Expenditures.

FOR THE MONTH OF AUGUST

Statement of Comptroller of the Currency Shows that the Total Circulation of Bank Notes for the Month of August Was $640,056,321.

Washington, Sept. 5.—The comparative statement of the government receipts and expenditures shows that for the month of August, 1907, the total receipts were $58,226,281, and the expenditures $54,637,790, which leaves a surplus of $3,588,491.

The receipts from customs amounted to $29,716,410, a gain of $704,000; from internal revenue, $22,231,416, a gain of $450,000; from miscellaneous sources, $6,278,425, a gain of over $1,000,000. Although the receipts were about $2,220,000 greater than for August 1906 the expenditures were nearly $7,008,000 in excess of those for the corresponding month last year.

SHOWS AN INCREASE.

Circulation Statement of Comptroller of the Currency.

Washington, Sept. 5.—The monthly circulation statement issued by the comptroller of the currency shows that at the close of business Aug. 31 last, the total circulation of national bank notes was $640,056,321, which is an increase for the year of $34,204,018, and [illegible] increase for the month of $660,435.

The circulation based on United States bonds amounted to $556,545,017, an increase for the year of $32,506,727, and an increase for the month of $1,922,627.

The amount of the circulation secured by lawful money was $47,110,414, an increase for the year of $1,697,261, and a decrease for the month of $1,262,193.

The amount of the bonds and deposits to secure circulation notes was $559,319,710, and to secure public deposits, $170,492,051.

Coinage Statement.

Washington, Sept. 5.—The monthly coinage statement issued by the treasury department shows that during August, 1907, the coinage, executed at the mints of the United States exclusive of $46,000 pieces coined for the Philippine government, amounted to $25,242,540, as follows: Gold, $24,394,540; silver, $683,000; minor coins, $165,000.

6 KILLED; 25 INJURED.

Fatal Wreck of Excursion Train on Canadian Pacific Railway.

Orangeville, Sept. 5.—A Canadian Pacific Railway special train carrying over 600 passengers bound for the Toronto exposition was wrecked on Tuesday, 9 miles south of here. Six persons were killed and over 25 injured.

The train pulled into Orangeville one hour late. A half hour later the locomotive jumped the rails on the down grade of the Horse Shoe curve of the Caiaxon mountain. Five crowded coaches were piled up on top of the locomotive. At Orangeville every seat was filled and several were standing in the aisles. These cars were jammed together in the fierce shock. No less than 600 passengers were in the cars that left the rails. At least twenty-five were injured, many of them seriously. Six were killed outright.

The only explanation for the wreck is that the engineer was trying to make up time and took the Horse Shoe curve at a high rate of speed.

Dwelling Burns Down.

Marietta, Ga., Sept. 5.—Tuesday afternoon at 1:20 o'clock the home of T. A. Gramling, of Atlanta, was struck by lightning and burned down. No one was at home. The fire department was called out, but as the dwelling was a mile out from the city no aid could be given to save the building. The residence was partially insured.

DEFIED BY STATE JUDGE.

Judge Wert, of Alabama, Disregards Federal Judge's Order.

Montgomery, Ala., Sept. 5.—When shown the report of the charge to his grand jury by Judge Thomas Wert of the Morgan county law and equity court, in which defiance was paid to the orders of the federal court at the city of Montgomery, Judge Thos. G. Jones, of the said federal court, made only this statement:

"I am sorry to see that the Morgan county law and equity court has declared war against the United States."

With a laugh, Judge Jones dismissed the subject.

Judge Wert instructed his jury that the right to prosecute for violation of state statutes held up by order of any federal court was not stopped, neither could it be by order of any federal court. Hence, it was not only the duty of the jury to investigate, but it could avoid such action and observe their oath. He said that while the freight rate act may be suspended, there is nothing to show that this applies to the passenger rates and it will be the duty of the court to fully investigate such irregularities.

Judge Jones, having granted the injunction asked by the Louisville and Nashville road, wherein sheriffs and solicitors are restrained from prosecuting under the acts, it makes it quite possible that in a few days at least there will be a clash of the courts. There is no doubt of the attitude of Judge Jones, of the federal court. He has given it out that any man making an arrest for failure to keep one of these enjoined acts will be at once sent to prison for contempt of his court.

NOVEL WEDDING CEREMONY.

Locked in Fireproof Safe Couple Take Marriage Vows.

Spokane, Wash., Sept. 5.—A desire for the unusual prompted Alice Mooney, a belle of the Palouse wheat district, to ask Judge Thomas H. Brantz, of the superior court at Walla Walla, to perform the ceremony of her marriage with John A. Raymond, a rancher, in the vault in the office of the county clerk.

Judge Brentz, who was a pony express rider in the early days, has not lost his love for the novel of adventure. He quickly assented and the service was read while the wedding party was in the steel-encased strong box.

When the groom handed the fee to the judge it was the understanding it should be expended for watermelons, the entire court house staff being guests. Many others were assembled on the lawn when a wagon filled to the guards with ripe melons hove in sight, but the bride and groom did not remain to participate in the festivities that followed.

"I have officiated at horseback, automobile, county fair and thresher weddings," said Judge Brentz, "but this is the first time that I ever heard of a bridal party being locked in a fireproof vault while the ceremony was performed. If the desire for the novel continues it will not be long before judges and ministers will be required to have airships as part of the equipment."

Roosevelt Changes Plans.

Oyster Bay, L. I., Sept. 5.—It was announced Tuesday that President Roosevelt will leave Oyster Bay for Washington on September 25 instead of September 29, as previously planned. The necessity of consulting several executive officers and getting the working force of his office installed in the reason given for the change of plans.

Veteran of Two Wars Dead.

Charleston, S. C., Sept. 5.—Capt. Henry Brown, a veteran of the Mexican and civil wars, and inventor of the bell buoy as now used at American ports, died here Tuesday, aged 80 years. He served during the sixties under Farragut and Porter and was commended and promoted for his gallant conduct.

Fell from the Dock.

Evansville, Ind., Sept. 4.—A ten-year-old lad, Harry Bauer, fell off a boat landing here and was drowned.

BRING LEGAL ACTION

Central of Georgia Bondholders Are Dissatisfied.

INCOME BOND DIVIDENDS

Bondholders Allege that Books Have Been Wrongly Kept—Action Will Be Taken to Compel Payment on All Classes of Bonds.

New York, Sept. 5.—The annual report of the Central of Georgia railway for the fiscal year, ended June 30, has just been issued here.

This is the road which recently passed into the control of Oakleigh Thorne and Mortimer J. Berry, and which is engaged in a dispute with the holders of its $16,000,000 income bonds as to the payment of interest on them.

The report on the face of it upholds the action of the directors in paying dividends on the third class of income bonds and paying only a part of it on the second class, as the income account shows a surplus of only $88 after the payment of interest.

The bondholders allege that the books of the company have been wrongly kept and a committee has been appointed which is to meet on Thursday for the purpose of preparing papers to bring legal action to compel the payment of the full 5 percent interest on all the three classes of bonds.

ACTOR MANSFIELD'S WILL.

Entire Estate, Both real and Personal, Left to His Widow.

New York, Sept. 5.—The contents of the will left by Richard W. Mansfield have been made public here by Irving Dittenhofer, who was in charge of Mr. Mansfield's legal affairs.

The will was made in 1894 and after providing for the payment of all just debts left by Mr. Mansfield, the entire estate, both real and personal, is left to Mrs. Mansfield, who is made the sole executrix.

As the will was made in 1894, which was before the birth of Mr. Mansfield's son, George Gibbs, the boy will take his share of the estate as if the actor died without a will. The will, which is brief, will be probated on Friday.

Mr. Dittenhoeffer was unable to say much concerning the size of the estate, but it is certain that it is much smaller than it was originally thought to be. The insurance on Mr. Mansfield's life, which was given at $250,000, turns out to be $60,000, $40,000 of which goes to the widow and the remainder to the estate, the value of which is given as $550,000.

BOAT CAPSIZED IN MIDSTREAM.

Party of Young People Have Narrow Escape from Drowning.

Roswell, Ga., Sept. 5.—On last Friday a party of young people, composed of Miss Edith Wood, Miss Arabella Dunwody, Miss Katharine Sudduth, Henry L. Freeman and M. L. Freeman, were rowing on the Chattahoochee river near Bull Sluice dam, when the boat occupied by Miss Wood and M. L. Freeman was capsized in water 30 feet deep. Miss Wood displayed remarkable presence of mind, managing to keep afloat until her strength was exhausted.

Just as she was going down the second time Mr. Freeman reached her and supported her until the boat occupied by their terror-stricken companions reached them and carried them ashore.

Five Bullets in His Body.

Birmingham, Ala., Sept. 5.—The finding of the body of Jerry Johnson, negro, with five bullet holes piercing it, is believed to be the sequel of an attempt to assault Mrs. W. W. Ellard, at South Birmingham. The body of the negro was found in an alley at Lewisburg. The coroner's jury returned a verdict that he died from wounds inflicted by unknown parties. Mrs. Ellard was accosted by a negro man, who seized her, but fled when she cried out. A posse went in pursuit of him.

DENY STRIKE IS BROKEN.

Telegraphers Say There Is No Break in Strikers' Ranks.

Atlanta, Sept. 5.—"There is nothing to it," emphatically averred the press committee of the local Telegraphers' union when questioned Tuesday night regarding the current report that the strike had been broken in Houston, Tex., and that twenty-five men had been re-employed at Chicago.

"It's all a dream, emanating from the minds of the local officials of the Postal Telegraph," declared a member of the committee. "We receive daily bulletins from all over the country, and they tell us no word of any break in the strike. Of course the story's a fake. How can the telegraph people expect the public to believe this when officials of the companies stated a few days ago that they were doing a normal business with the operators they had, and that they didn't need the services of the strikers? More than that, the companies declared that they would not re-employ any of the strikers. How do they account for that inconsistency? If they were doing a normal business with the force they had a few days ago, what are they doing with the services of 25 surplus men in Chicago and a whole new force in Houston?

"The strike hasn't broken. The situation is more encouraging today than it has been since the first of our number walked out."

LIKE JEKYL AND HYDE.

Physician Who Turned Burglar at Night Goes to Prison.

West Chester, Pa., Sept. 5.—Judge Butler has sentenced Dr. Benjamin Holbrook, who was convicted of robbing schoolhouses and railway stations, to five years' imprisonment.

Dr. Holbrook may well be called the "Raffles" of Pennsylvania. By day he was a well-bred, courteous physician and could be seen driving behind a spanking team or paying a visit to some of the neighbors. By night, it is said, the doctor became an audacious burgler, looting railway stations for miles around Coatesville, where he made his home.

The first robbery was committed at Wyebrooke, on the New Holland branch of the Pennsylvania railroad, which was followed by others at frequent intervals as daring and as puzzling as the first.

He was suspected and finally arrested on June 15 by a railroad detective. Holbrook made a full confession, admitting among other things that he was engaged to marry two young women.

MINISTERS LECTURE ALFONSO.

Spanish Monarch Rather Reckless as to Automobiling.

London, Sept. 5.—King Alfonso, of Spain, according to a story published in Truth, has been lectured by his ministers against personally driving the royal motor car at excessive and dangerous speed. His secret motor expeditions into France have also been condemned by them.

The king recently took a trip from Madrid to Bordeaux without knowledge of the Spanish or French authorities, and this caused the French police to protest that they could not be held responsible for the king's safety unless they had notice of his intention to visit France.

Large Bank at Rome.

Rome, Ga., Sept. 5.—The statement of the First National Bank of Rome, Ga., just issued, shows that it is not only one of the largest, but one of the most prosperous banks in Georgia. The statement shows a capital of $1[illegible]0, surplus of $250,000 and undivided profits, less expenses and taxes paid of $46,000, making a total capital of $446,000. The deposits amount to more than $500,000.

Thinks Danger Over.

Havana, Sept. 5.—Captain Henry D. Thomason, of the medical corps, U. S. army, who is in charge of the yellow fever situation at Cienfuegos, reports conditions there to be encouraging, and says he thinks there is no danger of the overspread of the epidemic.

IMPRESSIVE REQUIEM

Elaborate Funeral Ceremony Over Body of Archbishop Williams.

VAST CATHEDRAL CROWDED

Requiem, Made Deeply Impressive by a Wealth of Solemn Splendor and Elaborate Ritual, Was Celebrated by Cardinal Gibbons.

Boston, Mass., Sept. 5.—Honored by a prince of the church, the cardinal archbishop of Baltimore, his intimate friend for upwards of half a century, by a host of prelates and priests, by the commonwealth of the state of Massachusetts and city of Boston, where he was born, the body of Most Rev. John Joseph Williams, archbishop of Boston and dean of the Roman Catholic hierarchy in the United States, was on Wednesday placed in the crypt beneath the high altar of the Cathedral of the Holy Cross, which stands as a monument to his labors.

The solemn ceremony of transferring the body from the huge catafalque, upon which the casket had rested Monday, to its place of repose beneath the great white altar, followed a pontifical mass of requiem.

The requiem, which was made deeply impressive by a wealth of solemn splendor and elaborate ritual, was celebrated by Cardinal Gibbons, whose rank was bestowed upon him by Pope Leo XIII, at the request of Archbishop Williams, who had declined the honor in favor of his oldest friend in the hierarchy.

Following the chanting of the nicene creed, the deceased prelate's coadjutator, and now his successor, the Most Rev. Wm. H. O'Connell, delivered an eloquent eulogy.

Before the solemn pontifical mass masses for the late Archbishop Williams were said or sung in all the parish churches and chapels of the jurisdiction.

Although admission was by ticket, the vast cathedral was crowded to the doors long before the beginning of the service and thousands stood in the streets.

Following the eulogy, the five absolutions were given by the four senior bishops of the New England province. The final absolution was given by Archbishop O'Connell. After the service the casket was placed in the crypt under the main altar by the active pallbearers and hermetically sealed.

Among those who attended the funeral were Cardinal Gibbons, Archbishops Farley of New York, Ryan of Philadelphia, and Moeller of Cincinnati; the bishops of New England and representatives of the Roman Catholic church in Canada.

During the exercises the city bells and fire alarms were tolled. The city hall was closed between 10:30 and 12 o'clock, and the flag on the building was lowered to half mast.

HIS THIRD VICTIM.

Charged That Ex-Marshal Has Killed Three Men.

Columbu, Ga., Sept. 5.—The father of Loxia Edwards, who was killed by Wood Campbell, at Wildwood park Tuesday, swore out a warrant against the ex-marshal, charging him with murder. Some of the best legal talent in Georgia and Alabama will be engaged in defense of Campbell.

This is the third man he has killed, and his trial in this case will be the second that he has stood for the charge of murder. His acquittal at Opelika, Ala., for killing Richard Thetford, marked the end of one of the most exciting murder trials in the history of Lee county, Ala.

Mrs. Campbell has been terribly shocked by the tragedy and it is reported that her condition is serious.

Hot in This Georgia Town.

Pelham, Ga., Sept. 5.—The thermometer registered in the sun at 1 o'clock here Tuesday 110 degrees. For the past few days the weather has been the hottest of the year.

CARD FROM MR. ROGERS.

Anticipates His Return Home to Duty With Much Pleasure.

Editor Sun: If nothing happens to prevent me doing so I will leave the sanitarium in Atlanta next Monday, the 9th inst. for home and will arrive Tuesday on the 5:15 a. m. train.

To think of going home again fills me with joy that is inexpressible. My stay from home has been so long, my journey so wearisome, and oft-times the path so thick with dark, dark, shadows overhead, now to think of going back to my home, my people, and my many friends, is indeed a fine treat. Yet there has never been a day's dawn that has not shown a silver sheen beyond the shadows.

My many good friends have dispensed much of happiness and sunshine along the way. The doctors here say in a few months I will be completely well. How good this does sound, and with this bright hope to go back home—

Yes, I am going back home,
I am going back home.
Where the flowers all bloom in May
I am going back home.
I am going back home.
I am going back home to stay.

I have enjoyed the daily visit of The Sun. It is like a letter from some friend. I have noted with a degree of pain the sad events that have come to the town and rejoiced in her many good fortunes and continued improvement. I shall be happy beyond degree to be back at my post of duty, and to lend my might to her welfare. I shall not be able to do much before October or November, but feel that I will now be better off at home. Convey my love to everybody. With bright hopes of seeing you all soon.

Very respectfully yours,
S. B. ROGERS.

Piedmont Sanitarium, Atlanta, September 5.

RETURN OF THE HAYS.

Will Reach Home Today, After Spending a Delightful Vacation.

Friends of Rev. and Mrs. Thos. P. Hay will be pleased at the information that they are accompanied by their bright little son. Mr. and Mrs. Hay expect to arrive home today from Asheville, N. C.

The Hay family have been spending the past few weeks in Hendersonville and Asheville, but write that they will be glad to return home.

Mr. Hay will fill his regular appointment at the First Presbyterian church next Sunday.

A Handsome Case.

With a desire to be always up-to-date, L. J. Burkhim is having installed in his store a handsome wall case for the accommodation of his clothing. The case is a large one, extending half the distance of the store on the north side, and when completed it will attract a great deal of attention.

Mr. Burkhim is a hustler, and deserves the success he is having.

NEWS OF CITY AND COUNTY CONDENSED

E. D. Stanford, the popular special agent of the United States land office, has returned from his vacation. He visited the Jamestown Exposition and Washington, New York, later returning to his old home in North Carolina, where he visited relatives and friends.

Mr. and Mrs. J. L. Emerson have arrived in the city from Ocala, and are temporarily located at the Arnold House, East Main street N. Mr. Emerson, who has been for a long time bookkeeper at the Ocala Steam Laundry, has accepted the position of bookkeeper and assistant cashier with Phifer Bros., bankers, and has already assumed his duties.

To Sell Ice Cream.

The Little Gleaners' Society of Holy Trinity Episcopal church, with a desire to assist the church financially, will sell ice cream and cake in front of the church from 4 to 6 o'clock Saturday afternoon, and it is hoped the efforts of the little folks will meet with good financial encouragement.

Those desiring to donate cream or cake for this worthy cause are requested to notify the president, Miss Isabel Patton, 207 N. Roper avenue, or the directress, Mrs. R. A. Becker, 507 N. Garden street.

Wallace Parham's Ingenuity.

As a mechanic Master Wallace Parham, son of Mr. and Mrs. C. W. Parham, has shown his ability, notwithstanding his tender years. Wallace has been very industriously engaged in building a miniature sailboat for the past three or four days. He has completed his task, and the fruits of his efforts would do credit to a much older person with experience.

The craft is about two feet in length, full schooner-rigged, and has been admired by all the little fellow's friends who have seen it.

Latter Day Saints Here.

Two Elders of the Latter Day Saint profession have arrived in the city, and Thursday approached Acting Mayor Bunch in the matter of securing permission to hold services in the streets.

Acting Mayor Bunch informed the Elders that he did not care to assume the authority of granting them permission, but informed them that Mayor Thomas would reach Gainesville in the evening, when they could confer with him.

Prominent Colored Educator.

Prof. A. B. Young, the president of Florida State Normal and Industrial College of Tallahassee, is in the city. He will speak at Friendship Baptist church tonight at 8 o'clock. The ministers of the city and all lovers of education are cordially invited to come and hear this practical address, for it will be beneficial to all.

MR. BABERS PLEASED.

Prominent Crescent City Man Says Gainesville is All Right.

Among the prominent visitors to this city for the past two or three days was H. Babers of Crescent City, this county, who has been here as a guest of his son, H. J. Babers, one of the stenographers in the office of the Dutton Phosphate Company.

Mr. Babers, who is an extensive grower of peaches at Crescent City, is one of the most widely known men in that section of the county. He expressed himself as being well pleased with Gainesville, so far as he had seen.

"Gainesville has always enjoyed the reputation of being one of the solidest cities in the State," he said, "and we all have recognized that the place has been growing; but I had no idea of the rapidity attending this growth, nor the class of buildings which I see here. Your buildings, both business houses and residences, are modern and up-to-date in architecture, and in every other way, and I certainly congratulate your citizens upon their energy."

Mr. Babers left on the 1:30 train over the Atlantic Coast Line Thursday for home.

B. Y. P. U. Social.

The Baptist Young Peoples' Union held possession of the home of Mrs. Pauline McIlvaine, 108 N. Arredondo street, for a couple of hours Wednesday evening, the occasion being a social tendered by the Union. There was a large crowd present, and it is needless to add that they enjoyed the evening to the fullest extent. There was music and games, and during the evening delicious fruit punch was served, Dr. Coogler and Miss Bessie Kelley presiding at the punch bowl.

The New Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

Colored Examination Closed.

The examination of applicants for colored teachers in the county schools closed Thursday, and Hon. R. B. Weeks, chairman of the School Board, who was conducting the same, returned to his home.

There were only two applicants among the colored people, one male and one female.

The examination of white applicants will be concluded today, when the grading committee will proceed in its work.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.
In these days of strenuous competition it is necessary to maintain, as long as possible, youthful appearance.
It is impossible to do this while retaining a luxurious growth of hair.
The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair and it causes total baldness.
Newbro's Herpicide is the well known destroyer of this germ and is as effective as it is delightful to use.
Herpicide makes an elegant hair dressing as well as Dandruff cure.
Accept no substitute—there is none just as good. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

RIGHT TO REGULATE RATES.

In the present discussion of railroad rate problems, says The Atlanta Constitution, it is well to keep in view one essential fact. A railroad is a public service corporation. It owes a duty to the public as well as to its stockholders. As a public utility corporation, it is subject to regulation by the State or by a duly authorized commission having authority from the State.

The right to prescribe reasonable rates is clearly set forth in the following extract from a decision by the United States supreme court in a case appealed from Nebraska:

The public cannot properly be subjected to unreasonable rates in order simply that stockholders may earn dividends. The Legislature has the authority in every case where its power has not been restrained by contract to proceed upon the ground that the public may not be rightfully required to submit to unreasonable exactions for the use of a public highway established and maintained under legislative authority. If a corporation cannot maintain such a highway and earn dividends for stockholders, it is a misfortune for it and them, which the constitution does not require to be remedied by imposing unjust burdens on the public.

So where a railroad has so largely bonded its road bed and franchises as to exceed its fair value, and where its capitalization is largely fictitious, it may not impose upon the public the burden of such increased rates as may be required for the purpose of realizing profits upon such excessive valuation or fictitious capitalization. For no road is entitled to realize a given per cent upon its capital stock or property, without reference to the interest of the public.

The burden of proof is on the railroads to show that a rate is unreasonable and, therefore, confiscatory. If unreasonable it should and will be withdrawn.

A fair test will prove the fact.

THE FARMERS' IMPORTANCE.

The farmers are a very important element in the population, says The Southern Farm Magazine of Baltimore for September. This is demonstrated by the fact that 10,381,765 persons engaged in agricultural pursuits in 1900 were the dependence for food of the total population of 76,303,387 persons. But if the other 66,000,000 people had not been there, where would the 10,000,000 farmers be? If there had not been 7,000,000 persons engaged in manufacturing and mechanical pursuits, 4,767,000 in trade and transportation, 5,581,000 in domestic and personal service, 1,259,000 in professional service, and their families, the 10,000,000 farmers would have been occupied largely in the unprofitable pursuit of trying to lift themselves by their own galluses. Farmers are in a position to be the most independent human beings on the face of God's green earth. They are very important in human economy. But their importance rests upon the importance of other elements in the population. For instance, their position is strengthened very much by an increase in the manufacturing interests of the country.

Even if Mr. Rockefeller had succeeded in finding a hair restorer that recent fine would have snatched him bald-headed again.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

SERMONETTES

BY J. MARVIN NICHOLS.

Men talk of the logic of events—here is the logic of events. Men talk of the nemesis—here is the nemesis in history. Everything which falls in with the Supreme plan is forwarded and leads on to noble and vaster issues; everything which stands against that plan goes into silent decay under its awful impact. This is the nemesis of history—the logic of events.

It is not overwork—that is, in the aggregate—that kills. It is too much work done in too little time that causes the multiplied breakdowns in these fast days. Work pure and simple, however hard or constant, rarely impairs the health if only the ordinary laws of nature are observed. Mental and bodily toil, when brought within reasonable limits, tend to prolong rather than shorten life. Overwork does far less injury than underwork—"that rare and obscure calamity from which nobody is supposed to suffer."

Hon. J. J. Johnson, aged 69 years, died at his home in Williston on August 30. Deceased was for many years a leading citizen of LaFayette county and represented the district composed of the counties of LaFayette and Taylor in the State Senate for one term. He was a good man and his death is greatly regretted.

The inter-State meeting of the Cotton Growers' Association will be held at White Springs on September 12th. A barbecue will be given free, music by the First Regiment Band of Jacksonville, speeches by the best orators of the South, and a big day generally is the program.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

"SHADOW OF THE CROSS."

The Unexplained Miracle Picture at Jamestown Exposition.

(From Atlanta Constitution.)

The many visitors at Jamestown will find "In the Shadow of the Cross" one of the real novelties of the great exposition. It is on exhibition on The Warpath, and is being viewed with wonder and amazement by many thousands.

"In the Shadow of the Cross" was painted by Henry Hammond All who studied and painted in the art centers of the Old World for many years, devoting his talents mainly to genre subjects.

In September, 1906, he returned to America, his native land, and established his studio in a New England city, where for some time he painted principally portraits and landscapes.

Acting under the influence of some friends, he turned his attention to religious subjects, and among others commenced painting a full length figure of Christ, his object being to produce an ideal portrait of the Christ man. At first he did not succeed in attaining his ideal, and the canvas stood a source of trouble and vexation to him.

Numerous visitors were received at his studio, and among them a well-known lecturer on Biblical characters who became intensely interested in this picture and tried to make the artist understand the appearance of Christ as revealed to him in a vivid dream.

All in vain, however, until one day the artist was suddenly impressed with the realization that he had at last conceived the idea sought after. Immediately rising, he painted the wonderful countenance of Christ which is seen in the painting.

Anxious to know what the lecturer would say about the change, he sent for him. On entering the studio the lecturer went into raptures over the picture, exclaiming: "Now you have painted Christ as I saw Him."

Not long afterwards the artist, having to go to his studio at night for some sheets of music, was astounded to discover on entering that his picture could be distinctly seen in the dark, and that Christ appeared to be walking in a pale moonlight, while above and behind could be seen a cross.

His first impression was that the moon was shining through an open window upon the painting, and that the cross was a shadow. He soon discovered a strange cross in connection with this picture, and having used only well-known pigments, he soon realized that this strange quality of his picture was beyond his power to explain. He was so profoundly impressed that he refused to finish it, and the picture remains unfinished to this day.

Well Known Composer Dead.

Bergen, Norway, Sept. 5—Edvard Hagercup Grieg, the composer, died here Wednesday. He intended sailing for Christiania Tuesday and his baggage was already on board a steamer when he complained of feeling ill and the symptoms appearing serious, he was removed to a hospital where he died. Mr. Grieg was born at Bergen in 1843, of Scotch ancestry and received his musical education at Liepsic and Copenhagen.

LITTLE BABY CURED OF ECZEMA

Parents Applied to Hospitals and Doctors but Could Get No Relief—Grew Worse Under Doctor's Prescription—Friends Recommended Cuticura—Result

A SPEEDY AND PERMANENT CURE

"We express to you herewith our best thanks for the cure of our baby from eczema. The eczema appeared when the child was three months old. We applied to several doctors and hospitals, each of which gave us something different every time, but nothing brought relief. A physician recommended a salve which we threw into the fire after two days' use as the eczema became worse so that the baby scratched his face. At last, one of our friends recommended to us Cuticura Soap and Cuticura Ointment. A few days afterwards improvement could be noted. Since then we have used nothing but Cuticura Soap and Cuticura Ointment, and now the baby is six months old and is quite cured. All that we used was one cake of Cuticura Soap and two boxes Cuticura Ointment, costing in all $1.25. Even the poorest man can pay that instead of throwing it into the doctor's lap. I myself only make twelve dollars a week as a teamster, but I recommend the Cuticura Remedies strongly to all mothers whose children suffer from such diseases. They are cheap, harmless and good. C. F. Kara and Wife, 343 East 65th Street, New York, March 30, 1906."

FOR SORE HANDS

Soak the hands on retiring, in a hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, and in severe cases spread the Ointment on thin pieces of old linen or cotton. Wear during the night old, loose, kid gloves, with the finger ends cut off and holes cut in the palms, or a light bandage of old cotton.

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Pills (Chocolate Coated, 25c. per vial of 60) to Purify the Blood.

SMITHS, BROWNS, BLACKS.

They Make a Good Showing in New York's City Directory.

New York, Sept. 5.—Every member of the Smith family will be gratified with the showing it has made in the one hundred and twenty-first volume of the general directory of Manhattan and the Bronx, now being distributed, for it is holding by a safe margin the lead in numbers over the other families.

There are thirty-seven volumes of the new directory devoted to the Smith family.

In the colors the Browns and Browne lead by a comfortable margin. There are twenty columns of these; and the Whites come next, with ten and a half columns; there are eight columns of Greens and Greenes, while the Blacks and Grays break even with three columns.

There are approximately 500,000 names in the book, which would indicate a population of 2,500,000 in Manhattan and the Bronx, two of the five boroughs of Greater New York.

Cures Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

MOORS FOUGHT FIERCELY.

But French Fire Mowed Them Down Like Chaff.

Casa Blanca, Sept. 5.—Tuesday, eight Frenchmen were killed and 17 wounded in an engagement outside the camp.

The dead include Major Provost, of the first battalion of the foreign legion, and Lieutenant Benizzars of the second battalion of Algerian sharpshooters.

The Moors concentrated the largest force they had yet mustered in this vicinity and returned to the attack again and again after encountering the deadly defense of the artillery and machine guns. The enemy's losses are described as enormous.

The fighting was started by an attack made by the Moors on a French scouting party.

Light Company for Americus.

Atlanta, Sept. 5.—Americus, in Sumter county, is going to have a great light and power company. Secretary of State Phil Cook on Tuesday, issued a charter for the Americus Railway and Power company, capitalized at $250,000, which will build four miles of street car line, put in a thoroughly up-to-date lighting plant and in addition will pump water for the city for the next twenty years.

Six in One Week.

Alliance, Ohio, Sept. 5.—Harry Lester, aged 30, of this city, a brakeman on the Pennsylvania railroad, was killed at Mansfield Tuesday morning. Cotton Coming in Fast.

Cuthbert, Ga., Sept. 5.—Cotton is rolling into Cuthbert's market at a lively rate. The prices of the staple market have been such as to make it much popular with the farmers, and as a result much new cotton is coming into this market this season. During the month of August between one and two thousand bales were marketed in Cuthbert, and considering the fact that the marketing began late the showing for Cuthbert is a good one.

Rioting at Antwerp.

Antwerp, Sept. 5.—The violence of the locked out dock laborers of this city, who went on strike, increased to serious proportions Tuesday when at least a dozen persons, including strike-breakers and members of the crews of steamers, were attacked and badly wounded. The police charged repeatedly, firing their revolvers at the rioters, who dispersed only to reassemble again at some other point. As the conflicts between the rioters and police continued, military were ordered to mobilize.

Actress Blind from Flashlights.

New York, Sept. 4.—Virginia Harned, the actress, it was stated Monday, was stricken with blindness in New Haven a few days ago because of the strain of having the various scenes in the play "Anna Katrina," in which she is to appear in this city. Miss Harned came to this city for treatment and her doctors found she was suffering from a temporary paralysis of the eyelids. It is now announced that the actress has fully recovered her sight.

Judge Jackson, until the time of his retirement from the bench, about two years ago, was the oldest federal judge on the bench. He received his appointment from President Lincoln. NOTICE OF APPLICATION FOR LETTERS PATENT.

Notice is hereby given that on Tuesday, the eighth day of October A. D. 1907, the undersigned will apply to His Excellency, N. B. Broward Governor of the State of Florida, for Letters Patent on the charter proposed accompanying this notice.

J. B. PADGETT
W. R. THOMAS
R. E. HILL JR.

Under and pursuant to the requirements of the statutes of the State of Florida we, the undersigned W. R. Thomas, J. B. Padgett and R. E. Hill Jr. desiring for ourselves, our associates and successors to form and be incorporated as a corporation, do hereby give notice that we shall apply to the Governor of the State of Florida for Letters Patent.

The proposed charter is as follows.

First—The corporate name of said corporation shall be THE W. R. THOMAS LIVE STOCK COMPANY located and having its principal office and place of business at Gainesville, Florida.

Second—The general nature of the business or businesses to be engaged in or transacted by said company shall be as hereinafter mentioned and set forth viz: Transacting a general livery and sales stable business, buying and selling at wholesale or retail horses, mules, buggies, wagons and harness, live stock and cattle of every character, goods, wares and merchandise, the purchase and sale of real estate to have full power to exercise by its board of directors, or duly authorized officers or agents, subject to law, all such incidental powers as may be necessary to carry on and conduct said business, and for these purposes to have and possess all the rights, benefits, privileges and immunities incident to and given under the laws of this State to a corporation of such character.

Third—The amount of the capital stock of this corporation shall be One Hundred Thousand ($100,000) Dollars, to be divided into one thousand (1,000) shares of the par value of One Hundred ($100) Dollars each, payable in lawful money of the United States or in property, labor or services at a just valuation to be fixed by the board of directors at a meeting called for such purpose.

Fourth—The term for which this corporation shall exist shall be ninety-nine years.

Fifth—The business of the said corporation shall be conducted by the following officers viz: a President, Vice-President, Secretary and Treasurer, and a board of not less than three nor more than nine directors of which board of directors the President, Vice-President, Secretary and Treasurer shall be members and stockholders, and all officers of said corporation shall be chosen by the stockholders. The office of Secretary and Treasurer may be held by one and the same person. The board of directors shall make the bylaws of the corporation at any special meeting called for that purpose. The officers and directors shall be elected annually at the annual stockholders meeting, the first of which shall be in the company's general office in Gainesville, Florida, at 10 o'clock a. m. on the first Tuesday in January 1908, and annually thereafter and until such first election the names of the officers who are to conduct the business of the corporation until those elected at the first election shall be qualified are as follows viz: J. B. Padgett, President, W. R. Thomas Vice-President and R. E. Hill Jr. Secretary and Treasurer. The board of directors shall be J. B. Padgett, W. R. Thomas, R. E. Hill Jr. and J. A. Maultsby, until their successors shall be elected.

Sixth—The highest amount of indebtedness or liability to which the corporation shall at any time subject itself shall not exceed the amount of its capital stock at such time actually paid in.

Seventh—The names and residences of the subscribing incorporators to this corporation together with the amount of stock subscribed by each are as follows viz:

J. B. Padgett, Gainesville, Florida, 333 shares.

W. R. Thomas, Gainesville, Florida, 333 shares.

R. E. Hill Jr., Gainesville, Florida, 333 shares.

J. A. Maultsby, Campville, Florida, 1 share.

The amount of stock so subscribed exceeds ten per cent of the capital stock authorized under this charter.

Ninth—The capital stock remaining in the treasury at the time of the issuance of Letters Patent shall not be sold or otherwise disposed of except by the mutual consent of the stockholders of this corporation holding ninety per cent of the capital stock outstanding and issued.

The above and foregoing charter is subscribed to by the following persons viz:

W. R. THOMAS
R. E. HILL JR.
J. B. PADGETT.

State of Florida,

ATMOSPHERIC ELECTRICITY.

Experiment Suggested by Franklin and Performed by D'Alibard.

To Benjamin Franklin belongs the merit of having perceived that a direct experiment was needed to prove what so far was only a guess. In an article entitled "Opinions and Conjectures Concerning the Properties and Effects of the Electrical Matter Arising From Experiments and Observations Made at Philadelphia, 1749," the following passage occurs:

"To determine the question whether the clouds that contain lightning are electrified or not I would propose an experiment to be tried where it can be done conveniently. On the top of some high tower or steeple place a kind of sentry box big enough to contain a man and an electrical stand. From the middle of the stand let an iron rod rise and pass, bending out of the door and then upright twenty feet or thirty feet, pointed very sharp at the end. If the electrical stand be kept clean and dry a man standing on it when such clouds are passing low might be electrified and afford sparks, the rod drawing fire to him from any cloud.

"If any danger to the man should be apprehended, though I think there would be none, let him stand on the floor of his box and now and then bring near to the rod the loop of a wire that has one end fastened to the leads, he holding it by a wax handle so the sparks if the rod be electrified will strike from the rod to the wire and not affect him."

The experiment suggested by Franklin was successfully performed in Marly, France, by D'Alibard on May 10, 1752; in London by Canton in Spital square on July 20, 1752, and by Wilson in Chelmsford, Essex, on Aug. 12 of the same year. Franklin himself described having used a kite in Philadelphia in a letter dated Oct. 19 without giving the date of his observations. Rosenberger ("Geschichte der Physik," volume 2, page 316) mentioned that it was done in June.

Franklin's disbelief in the dangerous character of the experiment must have received a severe shock when he heard of the death of G. W. Richman, who, in the year 1753, was killed by an electric discharge drawn from the clouds by means of a kite.

A HOG ORCHESTRA.

French Musician Made the Squealers Sing a Tune.

During the reign of Louis XI. of France there was attached to his court one Abbot de Baigne, a man of considerable wit. The abbot was somewhat musically inclined and delighted the court with inventions of odd musical instruments. One day the king, after having enjoyed a hearty laugh over one of these curious contrivances and desiring to baffle this musical genius, commanded him to produce harmonious sounds from the cries of hogs. This seemed an impossibility to the king, and he prepared himself to enjoy the discomfiture of the abbot. Much to his surprise, however, the abbot readily agreed to produce them. All he required was a sum of money, upon receipt of which he declared he would invent the most surprising thing ever heard in the way of musical atrocity.

He scoured the country and secured a large number of hogs, trying their voices as to pitch and quality, and finally, having fully satisfied himself, he arranged the animals in a sort of pavilion richly decorated. The day of the trial arrived, and the king and his court entered the pavilion prepared for something, but greatly in doubt as to the success of the abbot with the hogs.

However, there were the hogs, sure enough, and, much to the surprise and delight of the king, they commenced to cry harmoniously and in good tune, rendering an air that was fairly recognized. The abbot had arranged a series of stops that were connected with the hogs and upon pulling one of them out caused a spike to prick the hog it connected with, making him squeal his note. The rest was easy, for by pulling out the different stops he produced the tune.

A Ring Island.

Many coral reef islands in the Pacific are in the form of more or less perfect rings, or ovals, inclosing lagoons. The ring island of Ninafou, halfway between Fiji and Samoa, is not a coral reef, but a volcanic ring inclosing a crater containing a lake two miles in diameter. Toward the sea the ring is bordered with walls of black lava, and on the inner side these break down in cliffs 200 to 300 feet in height. An eruption in 1886 formed a peninsula on the eastern side of the lake. While the ocean outside is trembling and thundering under a heavy wind the lake remains smooth or is simply wrinkled with ripples.

Instructed.

"That lady," said the new clerk, "wished to know if these eggs were fresh. How do I tell when eggs are not fresh?"

"You don't."—Houston Post.

That which is reasonable and that which is unreasonable have both to encounter the like contradiction.—Goethe.

BELIEVE IN DREAMS?

If Yes, What Would You Do In a Case Similar to This?

If you should dream that a man with whom you were acquainted killed his wife, if you were in the habit of dreaming and would put little value on your dream of a tragedy?

This question has been put to a number of people in this form: A married couple were occupying a house which was reported to be haunted some time ago. While the husband inspected the stables the wife remained in the parlor.

Shortly after her husband left the room the wife saw a man and woman enter. The woman was young and pretty and in tears. The man was angry. After gesticulating a few minutes he rushed to the girl, drew a knife from his coat and plunged it through her heart.

With a loud shriek the woman who witnessed the tragedy arose and staggered to the door. She looked about her and saw that the couple had vanished. She realized she had either been dreaming or had seen a vision. When her husband returned she told him her experience. They did not rent the house.

Some time afterward while attending a reception the woman was introduced to a young lady and her fiance. She recognized the characters of her vision. Later the young couple to whom she had been introduced were married. To her dismay, the woman learned they had leased the very house where she had experienced the harrowing dream.

What was she to do? She asked her friends. They were at a loss to give her advice. The woman was convinced that she was given the premonition of a tragedy. At the same time she dreaded provoking a disagreement in case there should be nothing but a hallucination.

What would you do in such a case? This would depend, of course, as to whether or not you believe in dreams. Do you?

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1.00. Sold by W. M. Johnson.
